Code A

```
1 import java.util.*;
 3 public class BuildingTeams {
        public static void main(String[] args) {
              Scanner sc = new Scanner(System.in);
               // Bemenet beolvasása
             int n = sc.nextInt(); // Diákok száma
int m = sc.nextInt(); // Barátságok száma
List<List<Integer>> graf = new ArrayList<>();
for (int i = 0; i <= n; i++) {
    graf.add(new ArrayList<>());
10
11
12
              // Gráf építése
               for (int i = 0; i < m; i++) {
   int a = sc.nextInt();
   int b = sc.nextInt();</pre>
17
18
                    graf.get(a).add(b);
                    graf.get(b).add(a);
21
22
23
24
              // Csapatok inicializálása (0: nincs csapatban, 1: első csapat, 2: másod:
int[] csapat = new int[n + 1];
               // BFS függvény a csapatok szétosztására
              boolean lehetseges = true;
28
29
30
              33
34
                               break;
```
